

## ➤ Additional Capacity to Produce 1200 Tons Per Annum

**Advent Dyestuffs & Chemicals Pvt. Ltd.** A new venture undertaken by the promoters of **Techno Color Corporation** recently, has fully fledged infrastructure and is equipped with modern setup to give additional capacity to produce about 1200 tons of dyestuffs.

### ➤ List of Machineries Setup:

#### ❖ Reactors:

- 40,000 Liters mild steel Rubber lined Reactor
- 40,000 Liters mild steel Rubber lined Reactor
- 40,000 Liters mild steel Rubber lined Reactor

#### ❖ Pressure Reactors:

- 30,000 Liters mild steel Rubber lined and Tiled lined Reactor Pressure Reactor
- 10,000 Liters mild steel Rubber lined Pressure Vessels

#### ❖ Reactors:

- 15,000 Liters Polypropylene FRP Vessels
- 10,000 Liters mild steel Rubber lined Reactor
- 7,000 Liters mild steel Rubber lined Reactor
- 15,000 Liters mild steel Rubber lined Reactor
- 1,000 Liters mild steel Rubber lined Reactor
- 5,000 Liters S.S. Pressure Vessels
- 2,000 Liters S.S. Pressure Vessels with Reflux Column & Condenser.
- 5,000 Liters S.S. Pressure Vessels with high speed agitator
- Complete Mfg. Plant for Eukesolar Liquid Dyes
- 5,000 Liters Glass lined vessels to be installed

#### ❖ Filteration Equipment:

- Polypropylene filter press 36" × 36"
- Polypropylene filter press 48" × 48" -> 3 Nos.

➤ S.S. Centrifuge 48"

❖ **Heating Equipments:**

➤ Revomax Boiler (Non-IBR) 600 kg/hr

➤ Revomax Boiler (Non-IBR) 600 kg/hr

❖ **Air Compressor:**

➤ High Capacity Compressor with 30 HP Drive

❖ **Drying Equipment:**

➤ One no. of Spray Dryer of Water Evaporation

➤ Capacity 400 kg/hr are under installation

➤ Drying oven with 96 S.S trays

➤ Drying oven with 192 S.S. trays

❖ **Size Reduction Equipments:**

➤ Two Nos. Of Pin type S.S. Pulveriser

❖ **Standardisation Equipments:**

➤ Ribbon Blender of S.S. 12,000 Liters Capacity

➤ Ribbon Blender of S.S. 1,500 Liters Capacity
