

➤ **List of Laboratory Equipments:**

- Spectrophotometer with High-Precision Colour Matching
- UV visible Spectrophotometer (Perkin Elmer)
- Laboratory Stirrers
- Laboratory Ovens
- Analytical Electronic Balance of Japan
- Pigment Testing Muller
- Automatic Applicator for Solvent Dyes & Also for Pigments
- Automatic Dyeing Machine
- Miscellaneous Equipments for carrying out variety of reactions for development and Q.C. works

➤ **List of Machineries:**

❖ **Reactors:**

- 20,000 Liters mild steel Rubber lined Reactor
- 12,500 Liters mild steel Rubber lined Reactor
- 12,500 Liters mild steel Rubber lined Reactor
- 10,000 Liters mild steel Rubber lined Reactor
- 6,000 Liters mild steel Rubber lined Reactor
- 5,000 Liters S.S.Reaction Vessel

❖ **Filtration Equipment:**

- Polypropylene filter press 36" × 36"
- Polypropylene filter press 48" × 48"

❖ **Heating Equipments:**

- Non IBR Boiler (Capacity 600 kg/hr)

❖ **Spray Dryer Holding Tanks:**

- 30,000 Litre S.S
- 30,000 Litre S.S
- 30,000 Litre S.S

❖ **Drying Equipment:**

- Spray Dryer (Water Evaporation Capacity 400 kg/hr)

❖ **Standardisation Equipments:**

- Ribbon Blender of S.S. 7,500 Liters Capacity
- Ribbon Blender of S.S. 1,500 Liters Capacity
- Ribbon Blender of S.S. 500 Liters Capacity
